

A catalogue of the major articles published in the *Australian & New Zealand Grapegrower & Winemaker* during 2011: Nos 564 to 575.

Alternative varieties

Mixing things up in the Riverland. Malcolm Sutton. 564:19
 Alternative wines: a corporate perspective. Malcolm Sutton. 564:39-40
 New grape variety puts down roots in Adelaide Hills. 566:46
 Future to be found in new varieties. Kellie Arbuckle. 571:21

Analytical services

Taking fingerprints for a case of stolen identities. Malcolm Sutton. 564:37-38
 The latest in lab gadgets for wine testing. Greg Howell. 564:59-61
 New breed of infrared analysis instruments. Wies Cynkar. 565:64-66

Automation & technology

Technology traces path from vine to wine. Jen Barwick. 566:47-50
 Little micro packs a big punch. Mark Smith. 566:64-65
 Automated data collection boosts stock management. 566:66-67
 Optical fibres give hope of big savings. RD@Work. 567:41(1)
 Wine industry turning to solar and saving. 568:59
 Robotic automation improving downtime. Danielle Costley. 570:62-63
 Cyber sensor 'nose' how to judge. Chris Herden. 572:92-93

Bird control

Falcons for Grapes evolves. Valerie Saxton. 573:56-57
 Rainbow lorikeets spotted near Perth. 575:30
 Genetics help prevent starling invasions. 575:31-32

Botrytis (see disease management - winemaking)

Bottling, labelling & packaging

Power of prestige in China. Jen Barwick. 564:66-70
 Design Q&A: Meet the new Queen Adelaide. 565:60
 Croxsons move to Melbourne. Jen Barwick. 566:70
 Celebrating a decade of screwcaps in NZ. 566:72-74
 Design Q&A: Meet the new Bourgeoisie. 566:78
 Design Q&A: W.Wagtail stands out from the flock. 568:58
 Warning: Label changes 'inevitable'. Frank Smith. 568:68
 Design Q&A: Sage advice in design. 569:74
 Design Q&A: Devine Design. 570:81
 Design Q&A: Meet Golding's gramps. 571:102
 Glass decorations aids fight against fake labels. Kellie Arbuckle. 572:127
 Design Q&A: Contemporary print and glass combine. 572:130
 Think outside the box. Jim Fortune. 573:105-106.
 Wine on tap breathes new life into cask wine. Kellie Arbuckle. 573:107
 Design Q&A: Banished and blessed. 573:115
 No silver bullet to brand security. Kellie Arbuckle. 574:118

Brettanomyces (see winemaking)

Business & technology (see also information technology)

Renewed hope douses fire sale feeling. Jen Barwick. 564:77
 How to sell a vineyard and winery business. Ben Killerby. 564:78-80
 A new dynamic model for quality grading. David Aylward. 565:78-79
 Small business insurance pitfalls to ponder. Melanie Reddaway. 566:52
 It adds up to have my birthday bus visit: Melanie Reddaway. 568: 67
 Conference sheds light on latest innovations. 568:69
 Web designer unveils secret to online wine sales. Kellie Arbuckle. 568:71
 Domestic sales falling. Mark Rowley. 570:65-66
 How to renegotiate winery and vineyard bank debt. Ben Killerby. 570:83-84
 Difference between perpetual and periodic. Melanie Reddaway. 571:103
 Going to the dark side of debt. Ben Killerby. 571:106-107
 Super obligations checklist. Melanie Reddaway. 573:117
 WISA calls for greater industry engagement. Jen Barwick. 574:116-117
 Beware the black box. Melanie Reddaway. 575:77-78

Canopy management

The flavour is in the shade. 568:20-21

Carbohydrate reserves to help predict yields. Jen Barwick. 568:28-29
 Canopy management offers solution to variable climate. Erika Winter and Stephen Lowe. 573:38-41

Crushing & pressing

Custom crush grows as wineries cut costs. 565:40-42
 Basket presses evolve into automated steel machines. Danielle Costley. 572:114-116
 Technology delivers potential flavour benefits. 572:116-122
 No need for tension to contract relationship. Kellie Arbuckle. 573:93-94

Climate Change (see environment management)

Covercrops

Glyphosate-resistant ryegrass in vineyards. 571:40
 Covercrop study reveals mixed approach delivers top outcomes. Jen Barwick. 574:27-31
 Undervine management research reveals fruitzone temperature control. Erika Winter and Stephen Lowe. 574:37-42
 Search for rootknot nematode resistant covercrops continues. Greg Walker. 575:20-21

Disease management – winemaking

Botrytis cinerea: Australian vintage 2011. Greg Howell. 570:67-68
 Botrytis – implications in wine development. Ask the AWRI. 571:78
 Heat treatment stars in rescue of laccase wine. Mark Smith. 575:41-43

Downy mildew (see pest & disease management)

Dams and water storage

WA's record dry spell leads to water budgeting. Danielle Costley. 565:29-30

Education & training

Courses deliver students career options. 567:83-87
 Global diploma expands career choice. Kellie Arbuckle. 567:8

Environment management

Study explores climate change responses: Jeremy Galbreath. 565:54-56
 Is carbon pricing an opportunity in disguise. Danielle Costley. 568:10-11
 Increasing vineyard profits and sustainability. Kelly Mulville. 568:22-26
 Eco winery leads way with unique focus in Adelaide Hills. Kellie Arbuckle. 570:59-61
 Green aims given global perspective. Leanne Webb. 572:32-38
 Elephant Hill rises to environment challenge. Chris Herden. 575:16-17
 Redirecting rainfall to manage salinity. Tim Pitt. 575:18-19

Export

China a wise choice for Wisdom Creek. John Kennedy. 564:41-44
 Partnership promotes new opportunities in China. 564:71
 What's influencing buyers in China, USA and Aus. Steve Goodman. 564:82-83
 Non-traditional strategies get wine in US market. Henry Work. 568: 43-44
 Market makes room for slowing bulk growth. Peter Bailey. 571:113-114
 Export support available. Tim Duval. 571:116

Fermentation

Tasmanians make smart plunge into red wine fermentation. Mark Smith. 569:55-56
 Turkish trial helps tame fickle MLF. Robert Paul. 569:63-65
 AWRI lifts fermentation monitoring, simulation, control. RD@Work. 573:61
 Steering clear of sulfidic smells in the cellar. AWRI. 574:81-87

Fertilisers and nutrition

Vine nutrition a matter of making sense of site. Mark Smith. 571:43-45
 Aged vines benefit from hands-on approach. Kellie Arbuckle. 571:46-48
 Don't waste time and nutrients. Ben Rose. 574:51-52

Filtration & clarification

Cross-flow lees filter experience delivers efficiency and economy at Yalumba. Luke Wilson. 567:62-64
 Sirromet installs cutting edge cross-flow filter. 567:66
 Savings add up with new filtration systems. Danielle Costley. 568: 54-55
 \$1 billion hidden cost of bentonite fining. P Majewski. 569:58-62
 Wine filtration. Past, present and future. Blair Hanel. 574:96-98
 Cross-flow: The future of filtration. Roundtable. 574:99-101

Frost protection

Managing a severe frost event. Sonja Needs. 568:40-42
 Ice saves vineyard from frost damage. Kellie Arbuckle. 570: 37-38
 Vineyard development no place for dreamers. Mark Smith. 570:38-40

Grapegrowing

Grapevine herbarium samples needed for virus testing. Jen Barwick. 564:20
 Falling harvest lifts price expectations. Jen Barwick. 565:17-19
 Crush begins as losses keep growing. Jen Barwick. 566:36
 Mothball mistake? Jen Barwick. 566:40-42
 Growers told to get savvy in selling grapes. Kellie Arbuckle. 567:16-17
 A new vineyard grading system for quality. Richard Smart. 567:18-19
 Berry desiccation: developing pre-emptive methods to adapt to heat spikes and dry conditions. Nathan Scarlett. 567:20-23
 Diversification delivers life beyond grapes. Kellie Arbuckle. 568:18-19
 Rapid spread of virus-like symptoms in grapevines. Nuredin Habili. 570:21-22
 Fungicide-resistant strain discovered. 570:29
 Putting the past season behind us. Ben Rose. 570:34
 High temp traits differ across varieties. Martin A. Moran. 571:34-36
 Winegrape price average drops \$300 in three years. Peter Bailey. 572:26-27
 Why the past could unlock grape future. Jen Barwick. 572:29-30
 The good bugs of Reschke. Chris Herden. 573:19-20
 History helps reveal changing maturity date. Frank Smith. 573:22-24
 Using bugs to say goodbye to nasty pests. Kellie Arbuckle. 573:24-26
 Vine removal – a costly or cost-saving exercise. Danielle Costley. 574:32
 Clare farmers work together to tackle spray drift. Kellie Arbuckle. 574:34
 Crush up, wine production down. 575:25

Harvesting

Predicting harvest time. Victor Sadras. 574:21-22

Information technology

Fresh and simple designs give web wow factor. Thea Naghten. 567: 81-82
 Rathbone Wines toast business reliability after moving to the cloud. 568:60
 QR codes quench thirst for instant wine information. Danielle Costley. 571:97-98
 New apps drive wine tourism. Kellie Arbuckle. 574:119-120
 yTags: Getting the conversation started. Kellie Arbuckle. 575:69-70

Irrigation

Making a little water stretch a long way. Frank Smith. 564:26-28
 New water project follows record dry winter. 564:31
 Early irrigation protects vines from sun damage. Kellie Arbuckle. 569:20
 Irrigation system maintenance, an expense or saving? Paul Geurtsen. 570:31
 Water supply can offset high-temp effects. Martin Moran. 570:32-33
 Sub-surface irrigation offers future vineyards solutions. Kellie Arbuckle. 572:78-79
 Gisborne South growers secure water supply. Kellie Arbuckle. 573:37
 Botanical adaption to drought. Yann Guisard. 574:44-46

International shows, expos, trends and regions

Hong Kong hub. Denis Gastin. 564:8-11
 Vive La Vinitech. Elizabeth Bouzoudis. 564:16-18
 [Vinitech] Exhibition highlights technology trends. Jen Barwick. 565:35-39
 Ningxia: China's new frontier for wine. Denis Gastin. 565:45-49
 Gan bei! Wine drinking habits in China. Patricia Osidacz. 565:49-52
 Aussies export their expert advice to China. Denis Gastin. 567:45-47
 Top 10 'cool' products impress in California. Curtis Phillips. *US WBM*. 567:70-72

Legal and insurance advice

Trade practices out, Competition and Consumer Law in. Tim Duval. 564:12-13
 Get what you can and manage the risk. Chris Herden. 566: 53-54
 Catch my drift? Madeleine Crawford. 567:25-26
 A fine line: Legitimate promotion or misleading conduct. Madeleine Crawford. 575:79-80

Materials handling

Winery prosecution a timely warning for all. Tim Wilson. 564:62-63
 Sustainable spray regime recognised. Chris Herden. 573:48-50
 Ensure top chemical results with right adjuvants. Ask the AWRI. 574:53
 Project reviews best strategies for Vintage 2011. Kellie Arbuckle. 574:54-56

Mechanical harvesting (see harvesting)**Mid-row management (see covercrops)****My View (see special reports)****News**

Growers out of ammo as diseases dig in. Malcolm Sutton. 564:7
 Barossa shines on world stage. Jen Barwick. 564:11
 Floods claim vineyards in three states. Jen Barwick. 565:7
 Constellation offloads to private equity firm CHAMP. Danielle Costley. 565:15
 GWRDC begins new research plan. RD@Work. 565:31(1)
 Wine gets the smoke treatment. Jen Barwick. 566:7
 Domestic blitz begins. Jen Barwick. 566:8
 Australia leads the way in wine education. Kellie Arbuckle. 567:7
 Chinese embrace Australian wine and lifestyle. Kellie Arbuckle. 568:7-8
 Mines vs vines in Hunter and Margaret River. Kellie Arbuckle. 568:12-13
 Water at what cost? Chris Herden. 569:7-10
 Cellar doors given tourism support. 569:11
 Wine industry criticises cancer council campaign. 569:15
 Five-year RD&E planning begins. RD@Work. 569:49(1)
 Crush report 2010-11. Jen Barwick. 570:7-12
 Industry support for land protection zone. 570:13
 Wagga centre first to face funding chop. 570:17
 Mixed feelings from wine sector on carbon tax. Kellie Arbuckle. 571:7
 State group plans a membership revamp. Kellie Arbuckle. 571:9-10
 Supporting our future leaders. RD@Work. 571:57(1)
 Murray Valley first to face harsh reality. Jen Barwick. 572:7-8
 Clare growers tackle wine glut. Kellie Arbuckle. 572:9
 New push to merge service bodies. Jen Barwick. 572:10-12
 Regions seek border protection. Kellie Arbuckle. 572:16
 Low-alcohol wine label gets tick of approval. 573:9
 Region seeks balance in Murray Darling Basin plan. Kellie Arbuckle. 573:10
 Casks promote safe drinking. 573:12
 Industry's top suppliers awarded. 574:7
 Murray Valley growers eye viable exit option. Kellie Arbuckle. 574:8-9
 AWRI boss ready to show dollars, sense of research. Jen Barwick. 574:10-12
 The next big thing: genetic modification. Jen Barwick. 575:7-9
 Scientists examine potential of soil carbon. Kellie Arbuckle. 575:10-11
 New research under way at Wagga. Kellie Arbuckle. 575:14

Nutrition (see fertilisers & nutrition)**Oak**

Barrels of inspiration from tour de France. Jen Barwick. 568:49-50
 Chemistry combines product and process. Jen Barwick. 571:84-85
 French finesse rivals bold American oak. Kellie Arbuckle. 571:86-87
 Consumers not fussed about industrial oak regimes. RD@Work. 573:61
 Oakscan defines the tannin in barrels. Frank Smith. 575:57

Oak alternatives

Oak staves make a comeback. Kellie Arbuckle. 572:112-113
 Ancient eggs inspire modern winemakers. Kellie Arbuckle. 573:84-85
 Ausvat puts alternative oak product under research spotlight. 575:59-61

Organics & biodynamics

In search of the holy wine grail. Jen Barwick. 571:61-66
 Practice makes perfect? Jen Barwick. 572:43-48
 Growing with Mother Nature. Jonathan Grieve. 575:22-24

Packaging (see Bottling, Labelling & Packaging)**Pest & disease management - viticulture**

Methods to detect and identify bunch rots. Suren Samuelian. 565:19-22
 Phylloxera threat remains as exclusion zones surveyed. Kate Foreman. 566:43
 Learning from a high disease pressure year. RD@Work. 569:50(2)
 Biological battle to end exotic pest problems. 570:22

New strategies to control leafroll. Gerhard Pietersen. 570: 24-25
Study looks at new way to prevent eutypa dieback. 570: 42-44
'Dog Book' has chemical queries collared. 570:48
Leafroll hotspots confirmed in Australia. 571:22
New strategies to control leafroll. 571:24-27
Debrief puts past challenges in perspective. RD@Work. 571:58(2)
Natural balance critical to mealybug control. Ask the AWRI. 572:56-57
Bud mite battle continues in the west. Stewart Learmonth. 572:60-62
Trunk insects and weevils under climate stress and climate change. Linda Thomson and Ary Hoffman. 572:64-70
Disease prevention starts with early planning. Kellie Arbuckle. 572:72-74
Fungicide resistance revealed. Hugh Armstrong. 573:44-46
Workshops boost pest protection. Kevin Powell. 575:26-29
Is that a beneficial bug? RD@Work. 575:37(1)
New report delivers timely best practice advice for pest and disease management. RD@Work. 575:38(2)

Phylloxera (see pest & disease management)

Powdery mildew (see pest & disease management)

Profiles

Neil Paulett. 564:52
Samantha Scarratt. 565:28
Stuey Bourne. 567:61
Steven Radis. 569:34
William Malone. 570:36
Mark Bulman. 571:79
Rory McCuaig. 572:58
Liz Jackson. 573:92
Nick Paulin. 574: 42
Jim Irvine. 575:56

Pruning, training & trellising

Trellis design still important to vine structure. Kym Ludvigsen. 567:27-28
Ocvitti to launch clamp for metal posts. 567:30
Semillon study reveals leaf removal effect. Nikki Lohitnavy. 567:31-32
Factors to consider in trellis construction. Kym Ludvigsen. 568:30
Spur pruning system for winter. Hennie Visser, Wynboer. 568:36-37
Electric pruners have growers talking. Kellie Arbuckle. 568:38-39
Experts share top tips for post-harvest. 568:34-35
Corkscrew trellis improves quality in Grenache. Kellie Arbuckle. 569:26-28
Timing is top priority when pruning. Brett Grocke. 569:47-48
Vine quality in the balance. Brett Grocke. 570:49-50
Australian vineyards to test breakthrough metal posts. 571:49-50
Planning trellising for long-term sustainability. Danielle Costley. 572:53-54

Pumps

New pump delivers benefits beyond quality. Kellie Arbuckle. 574:102-103

Recruitment and salaries

Small rise in average salaries but extras reduced. Michael Asmar. 571:107

Refrigeration & cooling

Come in from the cold. Warren Roget. 565:61-64
Winery saves \$40k through energy management. Kellie Arbuckle. 573:96-97
Condensing pressure optimisation for refrigeration plants. Tim Kroeger. 573:97-98
New resource to cool refrigeration costs. RD@Work. 575:39

Rootstocks (see vine improvements)

Sales and marketing

Strong relationships lift sales. Roundtable. 570:74-75
Do consumers really love their wine brands. Bill Proud. 570:77-80
China keen for a stake in Australian wine. Denis Gustin. 571:88-90
Brand passion starts at home. Roundtable. 571:91-92
Marketing terroir: Turkey Flat style. Gerri Nelligan. 572:124-125
Australian research shines on global wine marketing stage. Kellie Arbuckle. 574:104
Regionality can't be built overnight. Danielle Costley. 575:47-48

Smoke taint

Assessing vineyard viability after bushfire. Nathan Scarlett. 564:21-25
Smoke index tool to ease fears of taint. Kellie Arbuckle. 573:76-77
The burning questions on smoke taint. Ask the AWRI. 575:52-54

Special reports

My View: Australia – the way forward. Paul Henry. 564:6
My View: Label represents unique tale of wine. Tanya Scholes. 565:6
Roundtable: Young blood delivers fresh hope. 565:10-13
Jeni Port: All For One message misses its mark. 565:72-73
My View: Start small, love what you do, don't deviate. Hamish and Kate Laurie. 566:6
Nine days, three continents: one message. Paul Henry. 566:12
Top 20 Australian wine companies. Tony Keys. 566:13-34
Jeni Port: The art of criticism. 566:81
My View: A real challenge to 'master' wine. Kate McIntyre. 567:6
Roundtable: Back to the blackboard for wine industry. 567:76-78
Jeni Port: Time for Coonawarra to consider sub-regions. 567:74
My View: Vintage in the Vale rewrites myths. Jane Parkinson. 568:6
Jeni Port: The Twitter universe... for tweets and tweets. 568:66
My View: Size isn't everything, despite the hype. Stephen Strachan. 569:6
Winery Engineering Conference Preview. 569:78-82
Jeni Port: Wine lists don't measure up to glass sizes.
My View: Core of quality in unprecedented challenges. Robin Day. 569:6
Jeni Port: Wine writers' loyalty is to consumer not industry. 570:82
My View: Investment in future more important than ever. Roger Hoare. 571:6
The overbodied grape and wine industry. Robin Day. 571:10
Jeni Port: Oz wine shows kick out the Kiwis. 571:100
My View: Creating a sense of destiny. Ashley Ratcliff. 572:6
Jeni Port: Time to revolutionise the label. 572:128
My View: Don't forget the small touches. Jim Giszlovan. 573:6
A vintage at Domaine du Comte Liger-Belair. Max Marriott. 573:52-54
Jeni Port: WFA's five year plan 'divisive and disturbing'. 573:108
My View: Time to face up and unite on big issue. Chris Pfeiffer. 574:6
Jeni Port: Wine shows make 'boring' wine. 574:105-106
MyView: Why do we bother with biodiversity. Andy Chambers. 575:6
Jeni Port: Wine and WET and why it's time to worry. 575:72

Social media

Social networking on the move. Malcolm Sutton. 565:8
Strategy needed in social wine message. Jen Barwick. 565:74-75
Connecting with wine consumer using today's technology. Steve Goodman. 565:76-77
Top 10 lead new social media era. Qwoff Boys. 565:80-81
Talk is 'tweet' for our wine communicators. Kellie Arbuckle. 567:73
All aboard the Twitter train. Jen Barwick. 568:63-64
Wine joins group-buying phenomenon. 569:82-83
Secrets, nudity, cursing and mayhem. Andre Eikmeier. 572:136-138
Brand resonance: an outcome of Facebook. Rebecca Dolan and Steve Goodman. 573:109-110
On safari with the Qwoff boys. Chris Herden. 573:111-112
Suppliers enter social media space. Kellie Arbuckle. 574:122

Soil management

Mini lifeforms are evidence of soil health. Adrienne Law. 565:23-27
Quantifiable changes with organic mulch. Jane Lenting. 567:38-40
Mulch ado about results from Semillon trial. 569:37-38
New developments in soil monitoring. Kellie Arbuckle. 569:30-32
Soil typing leads to sound design. Ben Rose. 572:50-52
Making sense of soil mapping. Max Marriott. 572:80-82

Succession planning

Succession is a journey not an event. Chris Graves. 566: 83-84
Finding success in succession. Jill Thomas. 567:79-80

Tanks, catwalks & storage

Quality and energy savings on the rise. Kellie Arbuckle. 571:80-81
New tanks ensure quality steel present. 571:82
Orlando trial seeks to narrow the quality gap. 572:108-111

Taxation

- The tax consequences of entertainment. Melanie Reddaway. 564:75
 Tax office spells out its rules for uncommercial arrangements. Melanie Reddaway. 569:85
 Tax reforms splits the industry. Jen Barwick. 573:7-8

Tractors (see Vineyard Machinery)**Transport**

- OI shares carbon knowledge. Jen Barwick. 573:119
 Wine in transit at risk of quality loss. Kellie Arbuckle. 573:120-121

United Grower

- United Grower 572:83-90
 United Grower. 574:58-64

Vine improvements & rootstocks

- Breeding mildew resistance into vines. RD@Work. 565:32(2).
 Resistance of rootstocks depend on vineyard populations of root-knot nematode. Greg Walker. 566:37-39
 US rootstocks add new defence in nematode battle. Kate Foreman. 567:35
 Resistance of RS-3 and RS-9 rootstocks to local nematode population. Greg Walker. 567:35-36
 Breeding vines to suit our future. RD@Work. 567:42(2)
 Yalumba nursery releases new clonal selections. 567:37
 Rootstock trends highlight industry priorities. Kellie Arbuckle. 569:35-36
 Fast facts on rootstock trial design. 571:28-32
 The future of clones in full swing at Canowindra. Danielle Costley. 573:34-36
 Salty skin: reds most at risk. RD@Work. 573:60(2)
 New rootstocks target drought tolerance, quality. Danielle Costley. 574:35-36

Vineyard machinery

- CCA timber posts 'toxic' issue for industry. Danielle Costley. 564:33-36
 Tyre to tractor ratio helps prevent bogging. 565:39
 Technology takes the hard work out of harvest. 567:55-56
 Vineyards unprepared after years of drought. Kellie Arbuckle. 569:39
 Industry advice for optimum spray results. 569:40-42
 Undervine mower improves contractor's environmental status. Danielle Costley. 569:44
 Be informed and prepared for maximum spray results. Danielle Costley. 572:76-77
 Online spray diaries open dialogue between wineries and growers. Kellie Arbuckle. 573:47-49

Vintage Report

- Vintage 2011: Vigilance and patience pay off. 567:13-15
 The big crush. Chris Herden. 571:109-110
 Harvest total could drop to 1.36m tonnes. 571:111-112

Wine closures

- Zork sparkles on wine's world stage. Jen Barwick. 569:67-68
 Glass closures provide high-end alternative. Danielle Costley. 569:75-76
 Wine closures for export. Angelo Pepe. 571:94
 Cork still king in US. 572:131-134
 Strength of screw and charm of cork. Kellie Arbuckle. 572:139
 Screwcap continues to dominate Aus wine market. Jen Barwick. 574:107-115
 Consumer acceptance outweighs price, performance: J.Barwick. 575:73-76

Winery construction and architecture

- New winery employs energy saving design. 565:65-66
 Cool option in new building material. Kellie Arbuckle. 566:68

Winemaking

- Berries begin pathway towards wine styles. RD@Work. 565:33(3)
 Fruit-flavoured wine market pursues novice drinkers. Danielle Costley. 566:55-57
 Toward better use of white wine phenolics. RD@Work. 567:43(3)
 Cutting through the confusion around Pinot G. Ella Robinson. 567:48-53
 Angove rediscovered and renewed. Jen Barwick. 567:57-59
 Finding the right sweet spot. Sam Caporn, *Wine Business International*. 568:45-48
 40 years delivers 'sparkling' anniversary. John Kennedy. 569:54
 Our wines win big at Decanter awards. Danielle Costley. 570:52-53
 Pig takes on whole new meaning in the winery. Kellie Arbuckle. 570:54-55
 International project tackles Chardonnay challenge. 570:57
 Yalumba turns botrytis into medal-winning wine. 571:68
 Book offers insight on Australia's place in global wine industry. 571:69-71
