

A catalogue of the major articles published in the *Australian & New Zealand Grapegrower & Winemaker* during 2012: Nos 576 to 587.

Login to the *Grapegrower & Winemaker* Article Archive at www.winebiz.com.au/gwm to search for articles by keyword.

Analytical Services

Wineries embrace sensory analysis. Kellie Arbuckle. 580: 69-70.
 Non-invasive spectroscopic screening: a new approach to assessing damaged wines – Part 1. Neil Scrimgeour, Wies Cynkar and Eric Wilkes. 582: 77-78.
 Non-invasive spectroscopic screening: a new approach to assessing damaged wines – Part 2. Neil Scrimgeour, Wies Cynkar and Eric Wilkes. 583: 70-73.
 Wine analysis during crushing and pressing. Greg Howell. 584: 91.
 Testing for acidity and pH in wine made easier. Stephen O'Loughlin. 587: 76-78.

Bird Control

Trapping helps eradicate Indian mynas from vineyards. Kellie Arbuckle. 585: 58.
 Don't be scared when it comes to dealing with birds. Kellie Arbuckle. 587: 47-48.

Bottling, Labelling and Packaging

Label Q&A – Motiv; Chalk Hill Wines. 577: 75.
 Label Q&A – Mammoth and Elefont Design; Cape Jaffa Wines. 578: 77.
 Glass wine bottles here to stay. Chris Herden. 578: 78-80.
 Programming better production. Kellie Arbuckle. 578: 81.
 Label Q&A – Graphic Language Design; Bridgeview Wines. 579: 85.
 Sydney bottling line to cut freight costs. 579: 87-88.
 Preparation is paramount for mobile bottling runs. Danielle Costley. 580: 93-95.
 Label Q&A – Design Energy; Dinny Goonan. 580: 96.
 Taylors forges its future in Australian wine. Danielle Costley. 582: 82-85.
 New Barossa bottle provides increased regional identification. 582: 83.
 Regional reputation is all in the bottle. 583: 94-96.
 Label Q&A – Heine Jones; Tar & Roses. 583: 97.
 Covering the full spectrum in packaging. 583: 98-99.
 From bud to bottle. 583: 100.
 Wineries benefit from shared bottling facility. Kellie Arbuckle. 584: 119-120.
 Label Q&A – TypeSpace; Chaffey Bros Wine Company. 584: 124-125.
 Label Q&A – Fifty Design; Deakin Estate. 585: 115.
 Label Q&A: Saunders Design Group; Chalmers. 586: 99.
 Mildura bottling facility puts its best foot forward. 586: 100-102.
 Portavin expands sparkling capacity. Kellie Arbuckle. 586: 103.
 Label Q&A: Amplify Industries; Hungerford Hill Collection. 587: 83.
 Branding of a difference stands out on the inside. Stephen O'Loughlin. 587: 89.

Business and Technology (see also Information Technology)

Eastern Europe opportunity complex but growing. 576: 82-83.
 Fixed and variable costs of gadgets, ridgets and widgets. Melanie Reddaway. 577: 76-77.
 Interest rates: comparing oranges and apples. Melanie Reddaway. 579: 86.
 Green shoots to build on. Peter Bailey. 582: 89-90.
 Quality wines expected from 2012 crush. Peter Bailey. 583: 102-103.
 Bulk asserts its place as most dynamic wine segment. 583: 106.
 Clearing stocks for cash (without cannibalisation). Melanie Reddaway. 584: 128.
 Sales trends reflect variety. Peter Bailey. 584: 132-133.
 Live-streaming events can turn your brand website into a virtual cellar door. Dr Roberta Veale. 586: 105-107.
 Email and internet crucial for wine business. 587: 90-91.
 2012 vineyards survey data – removals. Peter Bailey. 587: 95.

Canopy Management

Root pruning and covercrops combine to control vigour. Ask the AWRI. 576: 29-30.
 Pre-flowering defoliation as a vineyard management tool for cool climates. Mark Krasnow. 579: 49-51.
 Mixed cost and quality effects from thinning. Ask the AWRI. 579: 52.
 Addressing fruit exposure in Granite Belt Chardonnay. Ursula Kennedy and Dylan Rhymer. 579: 55-58.

Crushing and Pressing

Basket presses offer intuitive technology. Danielle Costley. 577: 48-49.
 Europress delivers flexibility and savings for small winery. Kellie Arbuckle. 581: 75-76.

Crushing the myths about pressing. Gerri Nelligan. 584: 98-100.
 The world in a basket. Kellie Arbuckle. 584: 102-103.
 Making wine ... or making a winery? Chris Herden. 585: 70-71.

Covercrops

Native perennial grasses reap both cost and environmental awards. Kellie Arbuckle. 582: 19-22.

Education and Training

Bucher Vaslin at the heart of Waite winery. 578: 14.
 Wine scholarship a memorial to German daughter and friend. 579: 81.
 Wine business philosophy. Chris Herden. 580: 98-99.
 New push to connect students with industry. Kellie Arbuckle. 582: 90.
 Today's students, tomorrow's workers. 584: 129.
 Adelaide Uni to replace undergraduate wine marketing course. 584: 130.
 Riverina embraces young talent. Kellie Arbuckle. 584: 131.

Environmental Management

Global forum focused on climate change. Drs Cassandra Collins and Roberta De Bei. 576: 23-25.
 Environmental management systems in New Zealand wineries: is SWNZ the answer? Tracy-Anne De Silva and Sharon L. Forbes. 582: 75-76.
 Climate variability the main challenge. Mike Stone. 584: 28.
 Warming enlarges stomata in Shiraz. Victor Sadras, Amelia Montoro, Martin Moran and Pedro Aphalo. 584: 41.
 Study explores warming effect on grapevine yield in the Barossa. Victor Sadras and Martin Moran. 584: 42-43.
 Climate change and the Tasmanian Wine Cluster. Dr Jeremy Galbreath. 584: 82-84.
 Wineries awarded for commitment to environment. Kellie Arbuckle. 585: 14.
 Crop forcing improves winegrape quality in warm climates. Jon Tourney. 585: 34-36.
 Treasury takes sustainability to new heights. Kellie Arbuckle. 586: 25-27.
 Wineries demonstrate leadership through green credentials. Grahame Whyte. 587: 8-9.
 Yalumba winery leads the way in climate action. 587: 15.
 Adapting to drier and warmer conditions in the vineyard and winery. 587: 16.
 Innovative region sets new benchmarks for sustainable viticulture. Kellie Arbuckle. 587: 23.
 Investment in renewable energies allows wineries to enhance their green footprint. 587: 51-55.

Export

Wine export approval panel scrapped. 578: 7.
 Will new necessarily mean better? Jeni Port. 578: 75-76.
 Canada promotion delivers big results. Peter Bailey. 578: 89-90.
 Export figures support high expectations. Peter Bailey. 579: 90-91.
 Glimmer of good in tough export report. 581: 90.
 Bulk shipments no longer carry 'cheap and cheerful' tag. Kellie Arbuckle. 581: 92.
 Bulk of the issue is cost-savings. Peter Bailey. 581: 93-94.
 The great export boom: lesson learnt. Jeni Port. 583: 91-92.
 Bulk wines overtake bottled exports. Danielle Costley. 583: 104-105.
 South Africa's bulk exports soar as cost cutting promotes bottling offshore. Sharon Nagel. 585: 113-114.

Fermentation

Top tips to help select fermenters. Blair Hanel. 576: 60-62.
 Inoculation for MLF reduces overall vinification time. Caroline Abrahamse and Eveline Bartowsky. 578: 41-46.
 Reduce vintage costs and improve process control with new ferment simulation tool. Richard Muhlack. 582: 62-665.
 Constant observation key to avoiding dilemma of stuck ferments. Ask the AWRI. 582: 66-67.
 Malolactic fermentation issues explored. Ask the AWRI. 584: 86-90.

Fertilisers and Nutrition

Organic fertiliser reaps high yields with consistent quality. Kellie Arbuckle. 579: 53-54.
 Composting marc onsite for economic and environmental gains. Kellie Arbuckle. 580: 36-38.
 Biodynamic Paste helps fight dying arm disease. 583: 63.
 Plant tissue analysis can assist growers. Ben Rose. 586: 54.

Stoller beams some light onto the crop production debate. 586: 55-56.
 What are the benefits of nutritional analysis and how do I get the most from the results? Ask the AWRI. 587: 49.

Filtration and Clarification

Brettanomyces removal with BECOPAD filtration. Dr Paul K. Bowyer, Blue H2O Filtration. 578: 62.
 Filtration and the problems it can cause in wines. Greg Howell. 578: 64-65.
 NTU vs wine filterability index – what does it mean for you? Paul Bowyer, Greg Edwards and Amelia Eyre. 585: 76-80.
 To filter – or not to filter. 586: 88-93.

Frost Protection

Frost threat puts Marlborough wineries on alert. 580: 49-51.
 Vineyard planning and management must address frost hazards. Max Marriott. 582: 41-42.

Grapegrowing

Limestone values unearthed. Chris Herden. 576: 20-21.
 Long-awaited volume of knowledge in print. Ben Rose. 576: 22.
 Tasmania lifts sparkling wine research. Mark Smith. 577: 16-18.
 OctoKopter spots quality from above. Kellie Arbuckle. 577: 28-29.
 Do past mistakes continue to haunt industry? 578: 23-26.
 Growers to benefit from new forecasts. Kellie Arbuckle. 578: 29.
 High temperature disrupts anthocyanin: sugar balance in reds. Victor Sadras and Martin Moran. 578: 30-31.
 The light touch on wine quality. Professor Brian R. Jordan. 580: 21-22.
 Growers flock to sheep workshops. 581: 33-34.
 Young Vine Decline is studied closely in NSW. Dr Melanie Weckert. 583: 33-34.
 Winegrowers seek harmony through biodynamics. Max Marriott. 583: 36.
 Is the Shiraz berry the biggest loser? Steve D. Tyerman, Sigfredo Fuentes, Cassandra Collins and Sue Bastian. 583: 42-44.
 Significant variations in iconic Coonawarra vineyard lead to radical solutions. Grahame Whyte. 584: 18-23.
 Vineyard management in spring – Margaret River. Danielle Costley. 584: 30-31.
 From TLC to chainsaw. 584: 44-45.
 Improved vineyard biosecurity and hygiene practices. John Whiting. 585: 44-46.
 What can be done in the vineyard to manage risk in difficult seasons? Part 1. Mary Retallack. 586: 30-37.
 Let it hang – fruit thinning not needed? Dr Mark Greenspan. 586: 38-39.
 Creating resilient landscapes in the Barossa Valley. 587: 24.
 What can be done in the vineyard to manage risk in difficult seasons? Part 2. Mary Retallack. 587: 30-34.

Harvesting

How and why identify matter other than grapes. Ask the AWRI. 580: 77-78.
 Timing of harvest is a key decision for winemakers. Ask the AWRI. 585: 38-39.
 Planning provides for a successful harvest. Gerri Nelligan. 585: 52-56.
 Machine harvesting vs handpicking. Paul Kilmartin. 585: 81-86.

Information Technology

What do online search engines know about me? Paul Williams. 576: 80-81.
 Data: why do I have so much and where should I put it all? Paul Williams. 577: 78-79.
 Demystifying content management systems. Paul Williams. 579: 89.
 Going mobile to reduce errors in the winery. 580: 100.
 Vineyard data is all in the clouds. Kellie Arbuckle. 582: 48.
 Wine club operators benefit from new e-commerce technology. Kellie Arbuckle. 585: 122-123.

Irrigation

Vineyard irrigation efficiency and management can be enhanced by understanding of soil evaporation losses. Belinda L. Kerridge. 582: 36-39.
 Irrigation – don't leave essential planning until it becomes a last minute rush. Ben Rose. 582: 40.
 Tracking lost irrigation water. Eve-Lyn S. Hinckley. 584: 34-38.
 DELTA technology provides vital boost to Aussie grapegrowers. 586: 58.

Wine and Shows, Expos and Trends

Great Southern targets Taiwan, Hong Kong. Elizabeth Reed. 577: 50-51.
 Variety driving innovation in vineyards. Peter Bailey. 577: 72-74.
 Expo puts focus in innovation. Tony Hoare. 577: 80-82.
 US trade show positive for Australian exhibitors. Hartley Higgins. 578: 84-85.
 More national wine shows change judging system. 581: 15.

South Australia gets latest consumer insights. Kellie Arbuckle. 581: 20-21.
 ProWein expands to meet strong demand. Grahame Whyte. 582: 73-74.
 Conference reveals renewed faith in industry. Kellie Arbuckle. 583: 24.
 All set for Bordeaux's upcoming Vinitech show. 583: 29.
 Challenge more than just country rivalry. Kellie Arbuckle. 587: 58-59.

Legal and Insurance Advice

Relationship key to contract confidence. 577: 57-60.
 Rocky relationships hinders industry future. Jen Barwick. 578: 19-22.
 The contract is just the beginning. 578: 51-53.
 Rules and regulations on the move. Ask the AWRI. 578: 60.
 Team effort needed for happy resolutions. Jen Barwick. 579: 47-48.
 New legislation for securing rights over fruit. Lawrie Stanford. 580: 33.
 Facing up to possibility of total recall is recommended. 583: 108-109.
 Vineyard owners can lodge an objection to rating values when values have decreased. Ben Rose. 584: 40.
 Law and trade changes may help organic wine. Andrew Rosenbaum. 587: 56-57.
 Personal property securities – how these will affect you. Sandy Donaldson and Tim Duval. 587: 92-93.
 International Wine Law Association conference a success in Canberra. Will Taylor. 587: 94.

Materials Handling

Improving winery maintenance by low cost, effective condition monitoring. Ian Jeffery. 576: 70-72.
 Hygiene practices keep you in business. John Whiting. 582: 30-31.
 Springtime brings life to vineyards. Chris Herden. 584: 62.

News

Australian wine to benefit from nine-way trade agreement. 576: 9
 National body looking to cut costs. 576: 10
 Director shines light on Oz wine evolution. Kellie Arbuckle. 577: 10-12.
 Council considers funding restructure. Kellie Arbuckle. 577: 12.
 Industry champions prepare for the future. 578: 8-12.
 More US and local interest in wine properties. 578: 13.
 Vale Trevor Mast. 578: 7.
 Tasmanian wine set for 'substantial growth'. Kellie Arbuckle. 581: 7-8.
 Orlando announces big job cuts. 581: 8.
 Budget delivers welcomed dollars to industry. 581: 10.
 New chief executive named. 581: 11.
 Canada gets competitive. 581: 15.
 Transparency and security needed in Murray Darling Basin Plan. Kellie Arbuckle. 581: 19.
 Low-alcohol trend risking Aussie terroir and naturalness. Kellie Arbuckle. 582: 7-8.
 Carbon tax set to change business. Andy Chambers. 582: 10-13.
 'Drip fed' payments fail to nourish grapegrowers. Kellie Arbuckle. 583: 17-20.
 Vintage results reveal extraordinary opportunities for Aussie wine. Kellie Arbuckle. 583: 22.
 Of grape and wine: history captured as it was made. Kellie Arbuckle. 583: 23.
 Industry backs GWRDC plan. Kellie Arbuckle. 584: 7-9.
 Ex-WFA chief to guide Wine Victoria restructure. Kellie Arbuckle. 584: 10.
 Industry slams DrinkWise audit as false and misleading. Kellie Arbuckle. 584: 10.
 Funds of \$200k needed to secure industry against disease. Jen Barwick and Kellie Arbuckle. 584: 12.
 Change agenda includes new thinking. 585: 10.
 Wine industry pays tribute to inventor. Kellie Arbuckle. 585: 12.
 South Australian Winegrape Crush Survey State Summary 2012. 585: 16-17.
 Rabobank reveals latest global wine trends. Kellie Arbuckle. 585: 18.
 Time for a new national body to oversee biosecurity. 586: 7.
 Wine, health and the Australian context. 586: 8-9.
 Wine shows strong growth on home front. Kellie Arbuckle. 586: 10.
 Wineries hurt by online discounting. Kellie Arbuckle. 586: 12.
 Customer-value pricing for better returns. Kellie Arbuckle. 586: 14.
 Supporting women in wine. Kellie Arbuckle. 586: 20-21.
 Chinese consider phosphorous acid wine limits. Kellie Arbuckle. 586: 56.
 Pioneer winemaker Ray Beckwith dies at 100. Grahame Whyte. 587: 7.
 UK overcomes grudge against Aussie wine. Kellie Arbuckle. 587: 10.
 Great Southern Riesling is top regional drop. 587: 60.
 New Zealand's young winemakers dominate awards. 587: 61.
Oak
 What's new in barrel racking and washing. Blair Hanel. 578: 66-67.
 Wine industry feels the pressure. 583: 88.
 Oak alternatives – what's new out there? Blair Hanel. 584: 104-108.

Winemakers Xook up soft wine. Kellie Arbuckle. 584: 109-110.
An alternative approach to measuring dose rates for wood pieces. Andrei Prida and Benoit Verdier. 584: 111-114.
New developments create impressive result. Danielle Costley. 587: 66-67.
Oak deserves its fine environmental credentials. 587: 68-71.

Pest and Disease Management

Developing a targeted detection approach for grapevine phylloxera. Rebecca Bruce, David Lamb, Ary Hoffmann and Kevin Powell. 576: 15-18
Crush snail problem with targeted approach. Michael Nash and Linda Thomson. 576: 26-28.
Floor management practices to reduce pest-nematode in vineyards. Loothfar Rahman, Melanie A. Whitelaw-Weckert, Gregory Dunn. 577: 20-23.
What's bugging grapegrowers in Britain? Chris Malumphy. 577: 24-27.
More strobilurin-resistant powdery mildew detected in vineyards. Dr Trevor Wicks and Doug Wilson. 580: 24.
New research looks at matching spray program to vineyard variability. Jen Barwick. 581: 24-28.
Phylloxera concerns stall cross-border quarantine changes. Jen Barwick. 582: 23-25.
Vinevax Bio-inoculant trichoderma treatment for Eutypa shows promise in Henschke Vineyards. Mike Roberts. 582: 26-29.
Grapevine resistance to rootknot nematode, Meloidogyne fallax. G. Walker and M. Russ. 583: 38-39.
Biopest offers grower options for powdery mildew or mealybugs. 583: 43.
Strobilurin resistance to powdery mildew in a vineyard. Ask the AWRI. 583: 46.
Survival and spread of downy mildew. Trevor Wicks and David Braybrook. 583: 47-48.
Sustainable pest control – now and in a changing climate. 584: 48-55.
Awl nematode discovered in South Australia. G. E. Walker. 584: 56.
Top 10 tips for effective spraying. Marcel Essling. 584: 57.
drumMUSTER acts to save the last drop. 584: 64.
New-approach fungicides for Australian viticulture. 584: 65.
New fungicide offers exciting alternative for viticulture. 584: 66.
Understanding vineyard chemicals. Trevor Wicks and David Braybrook. 585: 42-43.
Phylloxera outbreak simulation – an education for Barossa growers. 586: 19.
Highlights from the international workshop on grapevine trunk diseases. Mark Sosnowski. 586: 40-43.
Using Biopest to control powdery mildew in the Riverina. 586: 45.
Tendrils – should you remove them? Tessa Nicholson. 586: 46-47.
Growers urged to review fungicide strategies. 586: 48-49.
Spray application in vineyards – still the key to successful pest and disease management. Mark Krstic. 587: 28.
Strong anecdotal evidence of Latania scale being a vector for grapevine leafroll associated virus. Diana Fisher and Stewart Learmonth. 587: 35.
Symptoms and management of bot canker. Wayne M. Pitt and Sandra Savocchia. 587: 36-39.
Victorian phylloxera exclusion zone launched with confidence. 587: 41.

Profiles

Paul Smart. 576:30. Dan Swincer. 577: 61. Victoria Leeke. 578: 32.
Liam Heslop. 579: 78. John Schiller. 580: 35. Fiona Donald. 581: 74.
Bart Molony. 582: 50. Chris Tyrrell. 583: 82. Matt Duggan. 584: 46.
David Lloyd. 585: 94. Prue Henschke. 586: 44. Justin Purser. 587: 80.

Pruning, Training and Trellising

Picking pruners. Kellie Arbuckle. 578: 33-34.
Old tool gets a modern makeover. Ben Rose. 579: 59-60.
Forcing fruit quality in hot climates. Frank Smith. 580: 39-40.
A new grape training system to suit machine pruning. Cesare Intrieri and Ilaria Filippetti. 580: 41-48.
Simple invention takes risk out of pneumatic pruning. Kellie Arbuckle. 582: 34-35.
Casella Wines switches to steel trellising system. 583: 60.
Environmentally friendly trellising is here to stay. 583: 62.
130-year-old Grampians vineyard delays pruning. 584: 47.
WoodShield post gets innovation award. Kellie Arbuckle. 587: 43-44.

Pumps

Winery pumps need consideration. Gerri Nelligan. 586: 94-96.
Italian pump manufacturer puts quality first. Grahame Whyte. 587: 62.

Recruitment and Salaries

Investment in people crucial to agribusiness. Kellie Arbuckle. 578: 86.
People definitely make the business. Jeffrey Wilkinson. 586: 98.

Refrigeration and Cooling

Capitalising on tartrate stabilisation. Dr Vince O'Brien. 577: 62-64.
Right tools deliver the most out of low cost, effective condition monitoring. Ian Jeffery. 577: 66-67.
Designing a low-carbon refrigeration system makes good sense. Rocky Moyes. 585: 101-104.
Benchmarking a continuous tartrate stabilisation system. Warren Roget. 585: 106-108.

Sales and Marketing

What influences a distributor's decision on who to represent? Part 1. Dr Steve Goodman. 576: 73-77.
Brazil opportunities beckoning. Jen Barwick. 577: 68-69.
Templates to help growers step up and stand out. Kellie Arbuckle. 578: 27-28.
Wine communicators, the new wine writers. Kellie Arbuckle. 578: 72-73.
Wine regions dig deep to promote unique identity. Danielle Costley. 579: 67-68.
What influences the Chinese distributor's choice on which winery to represent? Part 2. Dr Steve Goodman and Teagan Altschwager. 579: 79-80.
Wineries get on board event management. Kellie Arbuckle. 579: 83-84.
Author reveals first steps to marketing magic. Jen Barwick. 580: 88-89.
Wine trade gets serious with online forums. Kellie Arbuckle. 580: 91-92.
What influences the Chinese off-premise market choice? Dr Steve Goodman and Teagan Altschwager. 581: 81-84.
It's still about the message, whatever the medium. Angie Bradbury. 582: 88.
Co-creation and engagement key to wine club success. Kellie Arbuckle. 583: 89-90.
Aiming for effective international communications. Jeffrey Wilkinson and Rosemary Scott. 583: 93.
How do country of origin, closure type and label style affect purchase decisions? Dr Roberta Veale, Pascale Quester and Dr Michael Proksch. 584: 115-117.
City sellers. Kellie Arbuckle. 584: 126.
Wine education for consumers. Jeffrey Wilkinson. 584: 127.
Why Chinese on-premise choose the wines they carry. Dr Steve Goodman and Teagan Altschwager. 585: 109-110.
Horses for courses gives Sirromet Wines a win at Birdsville. Grahame Whyte. 585: 111.
Wine science: do we really need to know? Jeni Port. 585: 112.
The iron (III) tartrate photochemistry of wine: impacts of bottle colour and weight. Dr Andrew C Clark and Dr Daniel A Dias. 585: 118-121.
Recovering Australia's prominence requires key marketing thrusts. Mike Paul. 587: 11-12.
Outlook conference provides a springboard to success. 587: 82.
Nurturing and protecting our environment makes sense. Jeffrey Wilkinson. 587: 84.
Turning your one-time customers into long-term members. Michael van der Sommen. 587: 85.
Selling wine online. Adrian Mullan. 587: 86.

Smoke Taint

Centre opened to combat smoke taint. Mike Stone. 582: 49.
Smoke taint in wine unchanged by differences in vegetation. David Kelly. 582: 59-60.
Smoke taint symposium unveils some exciting new developments. Dr Mark Krstic. 583: 40.
A burning issue: the impact of vineyard exposure to smoke. Kerry Wilkinson and Renata Ristic. 585: 47-49.

Special Reports

My View: Impacts of the Murray Darling Basin Plan. Di Davidson. 576: 6.
My View: Agriculture leaders key to Australian future. Major General Michael Jeffery. 577: 6.

Foreign love affair. Jeni Port. 580: 90.
My View: Industry now has clear goals to map own success. Stephen Strachan. 581: 6.
Rhône, home on the range. Laurie Martin. 581: 12-14.
Assessing sun-smart protection. Ask the AWRI. 581: 36-37.
Alcohol and health research under the microscope. Danielle Costley. 581: 55-56.
My View: Winegrape sector recovery could stall without further cool region removals. Mark McKenzie. 582: 6.
Plenty of action in India's wine sector. Part 1. Denis Gastin. 582: 68-69.
Tall poppy syndrome strikes Casella Wines. Jeni Port. 582: 81.
My View: Federation is in listening mode. Paul Evans. 583: 6.

Small players the big winners for tomorrow's vineyard. Kellie Arbuckle. 583: 64.
 New WFA president optimistic about a bright future for wine. Tony D'Aloisio. 583: 65.
 Plenty of action in India's wine sector. Part 2. Denis Gastin. 583: 66-69.
 My View: An agenda for pleasing people some of the time. George Wilcox. 584: 6.
 International guests at wine tastings. Jeni Port. 584: 118.
 My View: Time to inspire consumers to discover value and enjoyment in Australian wine.
 Terry Morris. 585: 6.
 Selective science – from the vineyard to the winery. Kellie Arbuckle. 585: 8-9.
 My View: The rise and rise of process at the expense of outcome. Robin Day. 586: 6.
 Celebrating the people behind the wine. 586: 76-80.
 My View: Capturing the value of R&D with a greater emphasis on extension. Hon Rory
 McEwen. 588: 6.

Soil Management

Mulching, soil amendments and management in a commercial vineyard. David Hansen. 581: 38-41.
 Soil is not just dirt. Frank Smith. 582: 32-33.
 Growers gain significant savings from use of award-winning Observant soil moisture
 monitoring solution. 584: 68.
 Removing vine soil mounding is first step to redirecting beneficial rainfall. Rob Stevens and
 Tim Pitt. 584: 69-70.

Tanks, Catwalks and Storage

Winemakers explore best options for oak and tank storage. Blair Hanel. 583: 83-87.
 New maturation technologies deliver award-winning wine. 587: 64-65.

Taxation

Tax and your end-of-vintage party. Melanie Reddaway. 581: 89.
 R&D and liquor licensing for wine industry. Tim Edgcombe. 582: 15-16.
 Tax office targets wine producers with audits. Kellie Arbuckle. 585: 7.
 New WET rules to reduce rebate on blended wines. 586: 18.

Vine Improvements and Rootstocks

Fresh calls for national clean plant network. Kellie Arbuckle. 579: 44-46.
 Recovery of grapevines from fire damage. John Whiting. 580: 25-31.
 Researcher to decode key Australia rootstock. Kellie Arbuckle. 581: 22-23.
 Integrating biodiversity in and around vineyards. 581: 29-32.
 Illegal plantings raise nursery concern. Kellie Arbuckle. 581: 42-43.
 Monitoring water stress in vineyards. Guido D'Urso, Mario Palladino and Anna Staiano. 583: 48-49.
 Research body considers consolidation of germplasm collections. Kellie Arbuckle. 584: 14.
 Soil nutrients essential to nurture the vines through summer. Danielle Costley. 586: 50-52.

Vineyard Machinery

Grower field day attracts big crowd. Kellie Arbuckle. 576: 32-34.
 Field day hailed as relevant for industry. Kellie Arbuckle. 577: 30-32.
 Revolution begins in the vineyard. Kath Gannaway. 579: 62.
 New tools for the vineyard. 581: 44-48.
 Dominique Portet invests in new destemmer. Blair Hanel. 581: 79-80.
 Tunnel sprayers – the ultimate precision sprayer for the vineyard. Andrew Landers, Tim Gale
 and Kathy Evans. 582: 44-47.
 Articulated quadtrack is a showstopper. 583: 51-52.
 Vineyard manager savours performance. 583: 54.
 Tractor purchases require planning and assessment. 583: 58-59.
 Electrostatic sprayer hits the spot. 585: 62.
 Demand remains high for vineyard data services. 585: 63-64.
 Amadio Vineyard's investment still delivering quality four years on. 587: 25.
 Electrostatic sprayer to benefit smaller growers. Kellie Arbuckle. 587: 46.

Vintage Report

Yields down, demand up. 576: 7-8.
 Vintage confidence grows. Kellie Arbuckle. 577: 7-9.
 Quality outweighs quantity in vintage 2012. Kellie Arbuckle and Jen Barwick. 580:7-16.
 Outstanding vintage expected to counter ongoing oversupply issues. Grahame Whyte. 583: 7-15.

Wine closures

Sparkling screwcap to rival pop and bang of cork. Kellie Arbuckle. 578: 82.
 Screwcap offers new twist on sparkling closures. Kellie Arbuckle. 581: 85-86.
 Cork wins on sustainability. Stephen O'Loughlin. 587: 88.

Winemaking

More to the story of alcohol consumption and cancer. Creina Stockley. 576: 45-49.
 Malic acid uncovered. Rachel Gore. 576: 50-53.
 WA Cabernet Sauvignon clones focus of new research. Danielle Costley. 576: 55-56.
 Having faith pays off for Protero. Kellie Arbuckle. 576: 57-58.
 Unravelling the future of genetic modification in winemaking. Jen Barwick. 576: 64-66.
 Time to begin planning the Winery of the Future. Roundtable. 577: 41-44.
 Bung: the smart route to wine quality. Kellie Arbuckle. 577: 46.
 Genomic technology focus on WA's elite Cabernet clones. Danielle Costley. 578: 47-48.
 The pH influence on micro-oxygenation. Nikolaos Kontoudakis, Elena Gonzalez, Mariona Gil,
 Mireia Esteruelas, Francesca Fort, Joan Miquel Canals and Fernando Zamora. 578: 54-58.
 Experience leads to innovation. Kellie Arbuckle. 578: 67.
 Series seeks human touch over terroir. Kellie Arbuckle. 579: 73-74.
 Building presence in US wine market. Laurie Martin. 579: 76.
 The addition of bentonite at different stages of white winemaking and its effect on protein
 stability. Matteo Marangon, Ken F. Pocock and Elizabeth J. Waters. 580: 71-73.
 Modulating wine style with DAP: case studies with Albarino and Chardonnay. 581: 57-63.
 Is the drinking water at your winery safe to drink? Greg Howell. 582: 70-72.
 Save money and wine by choosing the right bentonite. Simon Kinley and Darko Obravovic.
 583: 74-77.
 Bottle shock: what is it and what are the causes? Lance Cutler. 583: 80-81.
 Using your egg is a natural for this down to earth winemaker. Grahame Whyte. 584: 96-97.
 WineCloud provides future direction for winemakers. Neil Scrimgeour and Eric Wilkes. 585: 65-69.
 Cabernet explored during Margaret River workshop. Danielle Costley. 585: 72-74.
 Building a new winery is a labour of love. 585: 91-92.
 Wine from the backyard. Kellie Arbuckle. 585: 116-117.
 US north coast gets access to flash extraction. Andrew Adams. 586: 67.
 A story of renewal in an ancient land. Adam Montefiore. 586: 68-72.
 Developing countries join ranks of participants in 2012 World Bulk Wine Exhibition. 586: 73.
 By Jingo – it's good. Kellie Arbuckle. 586: 74.
 Eleven countries participate in 4th World Bulk Wine Exhibition. 587: 72.
 Call for lower alcohol content in wine. 587: 79.

Winery Waste and Wastewater

Wineries embrace funding to reduce waste. Kellie Arbuckle. 578: 68-69.
 Tarac invests in renewable energy. Jen Barwick. 578: 69-70.
 Managing winery wastewater for vintage and non-vintage periods. Mitchell Laginestra. 584: 92-95.

Yeast, Additives and Enzymes

CMC – the bean counter's friend. Keith Treadwell. 576: 59.
 Direct inoculation with a difference. Chr Hansen. 576:67-68.
 Mixed bacteria started culture launched. E. Lerm, L. Malandra, P. Pellerin and M. du Toit.
 577: 52-56.
 Laccase and rot: is it there or is it not? Adrian Coulter. 579: 69-72.
 Is there too much residual copper in your wine? Greg Howell. 580: 74-76.
 Yeast selection impacts phenolics in Pinot Noir. Anna Carew, Paul Smith and Bob Dambergs.
 581: 70-72.
 Is there value in adding tannin to wine? Rachel Hanlin and Mark Downey. 584: 79-81.
 Comparison of effect of four commercial Pectolytic enzyme preparations in Muscat Gordo.
 Simon Kinley. 585: 88-90.
 Innovations sought in wine microbiology. Vladimir Jiranek and Paul Grbin. 585: 96-100.
 Yeast based wine additives. Greg Howell. 586: 81-83.
 Mannoproteins and their use in winemaking. Greg Howell. 587: 74.
