

# A catalogue of the major articles published in the Australian & New Zealand Grapegrower & Winemaker during 2013: Nos 588 to 599.

Login to the Grapegrower & Winemaker Article Archive at [www.winebiz.com.au/gwm](http://www.winebiz.com.au/gwm) to search for articles by keyword.

## Analytical services

Competitor analysis: Chile. Peter Bailey. 590: 83.  
Wine chemistry symposium to explore analytical metabolomics. Kellie Arbuckle. 594: 73.

## Bird control

Bang, bang, I (sort of) shot you down. 597: 54.  
Birds and grapes an ongoing battle. 599: 58-59.

## Bottling, labelling and packaging

Label Q&A – Hexagon Design; Josef Chromy. 588: 70  
AWRI workshop wraps up packaging problems. Geoff Cowey. 588: 71-72.  
Mobile bottling handled with care. Stephen O'Loughlin. 588: 73-74.  
Innovative research into dissolved oxygen management. 589: 77-78.  
Label Q&A – Lloyd's Graphic Design; Rapura Springs. 589: 79.  
Label Q&A – Mash Design; Alpha Box & Dice. 590: 72.  
Label Q&A – Swear Words; St Leonards Vineyard. 591: 77.  
Wine label redesigns: what to consider. Kellie Arbuckle. 591: 78-79.  
Hot off the press – smaller wineries try digital printing for short label runs. Kellie Arbuckle. 591: 80-82.  
Label Q&A – Just Add Wine; Andevine. 592: 76.  
History of Australian wine told through Hunter Bottling Company history. Kellie Arbuckle. 592: 77-78.  
Label Q&A – Studio Lost & Found; The Chalice. 593: 95.  
McWilliams to build bottling and packaging facility at Hanwood site. Kellie Arbuckle. 594: 77.  
Label Q&A – The Creative Method; Marlborough Sun. 594: 78.  
The glasstop launched at Sydney conference. 595: 90.  
Label Q&A – Sami Glastonbury; Charles Melton Wines. 595: 92.  
Relationships key to China wine success. 596: 90-91.  
Label Q&A – Nina Chalmers; Blue Hills Estate. 596: 94.  
Glass provides a window on the future. Stephanie Timotheou. 597: 95-97.  
Label Q&A – Percept Brand Design; VinPro Wines. 597: 98.  
Australian off-premise: what influences their wine buying decision? Dr Steve Goodman and Dr Cullen Habel. 598: 98-100.  
Label Q&A – Dom Roberts; Linnaea Vineyards. 598: 102.  
Square bottle. Round hole. Is it a revolution? Stephanie Timotheou. 599: 101-103.  
Label Q&A – Tonia Composto; Head in the Clouds Wines. 599: 104.

## Business and technology (also see information technology)

Treasury Wine Estates makes an innovative move in wine logistics. Grahame Whyte. 588: 77.  
How to break into the lucrative UK market. Mike Paul. 589: 81-82.  
Wineries chill out with temperature related shipping products. Kellie Arbuckle. 590: 80-81.  
Adapt and innovate in a challenging wine business world. 591: 83.  
Luxury wines enjoy growth surge in Asia. Peter Bailey. 591: 87.  
Supply and demand balances. Peter Bailey. 592: 82.  
Changes to the WET producer rebate. Melanie Reddaway. 593: 98.  
Domestic market update. Peter Bailey. 593: 102.  
Can your business benefit from EMDG? Melanie Reddaway. 595: 98.  
We are going in the right direction for Geographical Indicators. Andreas Clark. 596: 96-97.  
New technology is a corker. 597: 99-102.  
Holy ship. Look how much wine we import from those Kiwis. Peter Bailey. 597: 104-105.  
Where there's wine to be moved there's always a way to work it out. 597: 108.  
Viniquip puts some sparkle into Sirromet bottling system. 598: 103-104.  
Tasmania is proving it's a grape place to be. 599: 108.

## Canopy management

Contribution if canopy management and harvest decisions on grape and wine quality in the King Valley assessed. Erika Winter and Stephen Lowe. 588: 22-26.  
Ausvine seek solid solutions for vineyard trimmers. 589: 44-45.

## Crushing and pressing

Pellenc releases dynamic new grape crusher. Kellie Arbuckle. 593: 89-90.

## Education and training

Whirlwind education tour seeks to empower world's emerging influencers. Kellie Arbuckle. 592: 18.  
Precision viticulture offers workshops for grapegrowers. 592: 81.  
Learn by doing, tasting and travelling. Inigo Auzmendi. 596: 98.  
Education the key to cellar door success. 596: 99.

## Environmental management

Study finds climate change will put the squeeze on world's vineyard areas. 592: 21-22.

## Export

Export growth delivers cause for cautious optimism. Danielle Costley. 588: 78-79.  
Vinexpo brings Australian wine exporter closer to new markets. Kellie Arbuckle. 595: 96.

## Fermentation

Using the ecological diversity of yeasts to modify wine fermentations. Dr Kate Howell. 589: 50-53.

## Fertilisers and nutrition

Ensuring high quality wine production through optimising yeast rehydration. Maryam Ehsani, Victor Puente & Tertius van der Westhuizen. 588: 60-64.  
Understanding and unleashing crop potential. 595: 46.

## Filtration and clarification

Wineries choose crossflow for reliable filtration. 590: 56-58.  
A great tradition looking for that next cutting edge. 598: 85-88.

## Frost protection

Vineyard managers use fans to keep frost at bay. Kellie Arbuckle. 592: 33.  
Time to assess frost protection options. 594: 55.  
Post-frost management key to prevention. Kellie Arbuckle. 594: 56.

## Grapegrowing

2012 survey of SA wine grapegrowers released. 588: 14.  
Being proactive to avoid disputes eventuating in the vineyard. 588: 15-18.  
Weather stations come a long way. Paul Franson. 589: 29-32.  
Pruning innovation sees host of new products for 2013. Ed Merrison. 590: 24-27.  
Distinguished vineyard sites are essential for quality fruit production says Petaluma. 591: 54.  
US study on managing yield and ripeness. Kellie Arbuckle. 591: 55-56.  
Early maintenance crucial to trellis longevity. 591: 58.  
A passion for helping growers and wineries achieve results together. Kellie Arbuckle. 592: 20.  
Yarran grower challenges negative perceptions of Riverina wine. Kellie Arbuckle. 593: 48-49.  
Supply balance – are we there yet? Gary Baldwin and Paul van der Lee. 593: 54-58.  
Grapevine genetic research delivers disease resistance and quicker results. 594: 24-25.  
Growers set to save time on spray diaries. Kellie Arbuckle. 595: 33-34.  
Leaf removal and flavonoids: a vigneron's compendium. Russell Moss. 595: 36-38.  
Airborne technology takes spraying to new heights. Kellie Arbuckle. 595: 40.  
Managing botrytis without Filan this season. 595: 44.  
At Warburn Estate it never rains – then it pours. Beverley Prideaux. 596: 26-27.  
Tassie vineyards get expansion boost. Stephanie Timotheou. 596: 28.  
Look out for grapevine red blotch-associated virus. 596: 30-32.  
Still some sting in the tail of strobilurins. Trevor Wicks, Barbara Hall and Doug Wilson. 596: 40-46.  
Biochar applications in a King Valley Vineyard. 597: 26-32.  
Talk about pick of the crop. 597: 34-36.  
Get ready to regulate your ripening. 597: 38-40.  
Trunk disease and cover crops at top of Queensland agenda. 597: 41-42.  
Healthy soils a foundation for good wine. 597: 43-45.  
Tank installation aids grape research at Mildura. 598: 28-29.  
How will the Carbon Farming Initiative affect the vineyard? 598: 30-34.  
Greenhouse gas abatement in viticulture. 598: 35-38.

Can petiole analysis help improve wine quality? 598: 40-41.  
 Seven things you always wanted to know about fungicide resistance. 598: 48-50.  
 Healthy approach to soil quality hits pay dirt. 599: 37-39.  
 Gearing up to get on top of the next year in the vineyard. 599: 40-43.  
 DIY phylloxera laws go online. 599: 44-46.

### Harvesting

LEDA propels its customers into new era of harvesting. 597: 55.

### Information technology

Evolution of digital marketing. 591: 86.  
 Don't blow your business card to the world. 598: 105-106.

### Irrigation

Research to reveal best irrigation practice in dry winters. Kellie Arbuckle. 594: 51.  
 Research compares surface and subsurface drip irrigation systems. Kellie Arbuckle. 594: 54.  
 Plan your irrigation with satellite technology. 596: 64-65.  
 From the DELTA to the Murray it runs clear. 598: 56-57.  
 Making the most of not enough water in irrigated vineyards. 599: 48-52.

### Laboratory equipment and services

New meter has an edge start in market. 599: 98-99.

### Legal and insurance advice

Why use an insurance broker? 590: 78.  
 Insurance policies – the devil is in the detail. Kellie Arbuckle. 590: 79.  
 Insuring export wine. 595: 97.

### News

Wine tannin research wins Mildura scientist a Victoria Fellowship. 588: 8.  
 Wine and tourism given a big marketing push. 588: 9.  
 Wineries bring out best of Festival state. Kellie Arbuckle. 588: 12-13.  
 Wine producers count cost of severe heat. Kellie Arbuckle. 589: 8-9.  
 A warm start bears fruit for Australia's cool regions. 589: 10-12.  
 Viti professor brings fresh ambitions to CSU wine centre. Kellie Arbuckle. 590: 7.  
 Global wine challenges and opportunities. Andrew Adams and Paul Franson. 590: 8.  
 Coles tells small wineries to 'work with us'. Kellie Arbuckle. 591: 7.  
 McLaren Vale producers take proactive approach to climate change. Kellie Arbuckle. 591: 10.  
 WEA conference delegates looking to sample taste of future technology. Kellie Arbuckle. 591: 12.  
 Australia's grapevine germplasm collections under threat. Kellie Arbuckle. 593: 7-8.  
 Wine in supermarkets could hurt business, industry boss warns. Kellie Arbuckle. 593: 12.  
 Australian wine industry study mission to India. 593: 14-15.  
 More wineries sign up to voluntary code of conduct. Kellie Arbuckle. 594: 7.  
 AWITC gives industry much-needed shot in the arm. Kellie Arbuckle. 595: 7-9.  
 Disease risk lowered with moderate wine consumption. 595: 15.  
 Australian wine exports continue to grow at higher price points. 595: 19.  
 Australian film explores China's obsession with Bordeaux wine. Kellie Arbuckle. 595: 22.  
 Softer dollar puts some promise back in land values. 596: 7-8.  
 Wake up Canberra – we need you. 596: 12-14.  
 Wine industry cautiously welcomes weaker dollar. Ed Merrison. 596: 18-19.  
 Australian wine – where to next? 597: 7-10.  
 Grapegrowers refused to be crushed. 597: 15-16.  
 Victoria's firsts, new faces, new events. 597: 18-20.  
 It's Carson's Jimmy with perfect Pinot Noir. 598: 14.  
 A year in the life of a legend. Stephanie Timotheou. 598: 16-17.  
 Wine on its way to number one. Stephanie Timotheou. 599: 7-8.  
 Wine facing tough five-year outlook. 599: 9-11.  
 Wine industry sails into uncharted waters. 599: 12-16.  
 Right job pays off in wine industry. 599: 17-18.

### Oak

Oak maturation trial results show cost savings. Peter Warren. 595: 77-78.  
 Barrel experience offers quality oak alternative. 596: 86.  
 He's Seppeltsfeld's super dooper cooper. Stephanie Timotheou. 599: 88-91.

### Pest and disease management

Growers combat virus early with new mealybug insecticide. Kellie Arbuckle. 589: 38.  
 Identification and management of non-Botrytis bunch rots. David Waters, Dr Andrew Hall and Professor Chris Steel. 589: 33-34.

Organic control options a dark future for the light brown apple moth. Russell Moss. 596: 50-53.  
 New twists in an old story. Greg Howell. 596: 54-56.  
 Managing powdery mildew under threat of fungicide resistance. 597: 46-51.  
 Organic inputs for disease management in organic blocks. 597: 52-53.  
 Researchers turn technology on phylloxera threat. 598: 42-44.  
 One-stop shop for virus detection and elimination. 599: 53-56.

### Profiles

Amy Richards. 588: 32.  
 Wendy Cameron. 589: 65.  
 Keith Harris. 590: 28.  
 Peter Dredge. 591: 74.  
 Sam Dahlitz. 592: 32.  
 Anna Hooper. 593: 91.  
 Keith and Kat Barry. 594: 40.  
 Gwyneth Olsen. 595: 73.  
 Rory McCuaig. 596: 65.  
 Franco D'Anna. 597: 76.  
 Rob Wignall. 598: 39.  
 Tony De Lisio. 599: 87.

### Pruning, training and trellising

Interchangeable cutting head enhances Electrocoup pruner versatility and value. 592: 38-39.  
 Kilma is suited to arch cane pruning. Grahame Whyte. 592: 42-44.  
 Quality is clear cut. 593: 64.  
 Preparation key to smooth pruning run. Ed Merrison. 593: 65-66.  
 Decompressing harvest and preserving wine style in warming climates. Victor Sadras, Paul Petrie, Martin Moran, Susan Bastian and Dennis Taylor. 594: 47.  
 Balanced pruning key to yield. 594: 49.  
 Angrove searches for environmentally acceptable products for its organic vineyard. Andrew Mole. 595: 48-49.  
 Ledgard proves to be a cut above. 599: 68.

### Refrigeration and cooling

Refrigeration efficiency is more important now to the Australian winemaker than ever before.  
 Chris Herden. 589: 66-68.  
 Chill out man, Tri Tech is on the way. 597: 84.  
 Fast, energy-efficient cold stabilisation. 597: 85.

### Sales and marketing

Media-savvy marketing is all about being prepared for an opportunity. Gerri Nelligan. 588: 66-67.  
 Telling a good yarn is crucial to marketing your winery. Jeffrey Wilkinson. 588: 69.  
 Marketing: image is everything. Gerri Nelligan. 589: 73-75.  
 Knowing who and why is key to cost-effective communication. Jen Barwick. 590: 66.  
 Wine auctions offer a unique pathway to market. Grahame Whyte. 590: 67-68.  
 Match message to both audience and medium. Jen Barwick. 592: 75.  
 Social media marketing: a pathway for winery brand growth. Steve Goodman, Rebecca Dolan and Cullen Habel. 593: 93.  
 How (and why) are wineries using Facebook for marketing? Dr Steve Goodman and Dr Cullen Habel. 595: 85-86.  
 Now it's carbon zero closures. 596: 92-93.

### Special reports

My View: Research provides a sound foundation for knowledge. Dr Jim Hardie. 588: 6.  
 Is that Brett? Ask the AWRI. 588: 53-54.  
 My View: Nurturing the green shoots of innovation. George Wahby. 589: 6.  
 Controlling Botrytis. Ask the AWRI. 589: 28.  
 Superior profitability through innovation. Jeffrey Wilkinson. 589: 76.  
 My View: Lies, damned lies. Bob Campbell. 590: 6.  
 Fruit splitting of winegrape berries. Annabel Bowcher. 590: 16-19.  
 Proctase as a bentonite alternative – what's the latest? AWRI. 590: 49-52.  
 US off-premise: why do they buy what they buy? Dr Steve Goodman and Dr Cullen Habel. 590: 64-65.  
 How much have exchange rate movements reduced competitiveness of Australian wines? Kym Anderson and Glyn Wittwer. 590: 73-76.  
 My View: Australian wine sector – drowning in bulk wine? Dr Richard Smart. 591: 6.  
 Top 20 Australian wine companies: annual review opens the window to our biggest producers. Grahame Whyte and Kellie Arbuckle. 591: 18-44.

Is that Brett? Part 2. Ask the AWRI. 591: 64-66.  
My View: The value of small and medium enterprises throughout the wine supply chain. David Lowe. 592: 6.  
Salt in grapes and wine a common issue. Ask the AWRI. 592: 28-29.  
My View: Collaboration – wine's winning edge. Rachael Sweeney. 593: 6.  
Wine as part of a healthy diet? Australian Dietary Guidelines 2013. Ask the AWRI. 593: 82-83.  
My View: Australia to host international wine and health conference in 2013. Creina Stockley. 594: 6.  
A review on the use of cover crops to control vigorous vine growth. Tony Proffitt, Eloise Jarvis and Mark Gibberd. 594: 29-34.  
Vary strategies for successful weed management. Ask the AWRI. 594: 36.  
2013 Winegrape Purchases Price Dispersion report summary. Peter Bailey. 594: 80-81.  
My View: Loss of integrity for Geographical Indicators. Dave Bell. 595: 6.  
Snapshot of oak-related queries. Ask the AWRI. 595: 68.  
Barrel reclamation: everything that's old can be new again. Kerry Wilkinson, Sijing Li, Paul Grbin and Peter Warren. 595: 70-72.  
My View: Innovate or pay the price. Peter Hackworth. 596: 6.  
Vines: Is an oldie necessarily a goodie? Ask the AWRI. 596: 57.  
My View: Supermarket plan shelved – but change is needed says wine boss. Brian Smedley. 597: 6.  
My View: Independence is the magic of the little man. Sean O'Brien. 598: 6.  
Wine online: is your brand and your customer's security on the line? Andrew Mole and Stephanie Timotheou. 598: 7-9.  
Terms and conditions cut both ways. John MacPhail and Paul Gordon. 598: 12.  
My View: The rise and rise of Pinot Noir. Tom Carson. 599: 6.  
50 years special feature. 599: 22-32.  
If the grape fits then you can grow it. Ask the AWRI. 599: 57.

### **Spray technology**

It's all in the way you spray. Stephanie Timotheou. 598: 45-47.

### **Soil management**

Increase in soil salinity puts growers on alert. Kellie Arbuckle. 593: 67.

### **Tanks and storage**

Efficient tank cleaner removes stubborn residues from barrels and large tanks. 592: 67.

### **Taxation**

Full press on wine tax. 596: 10.  
Taxman hunting the WET cheats. 599: 5.  
ATO plans to hang out WET to dry. 599: 106-107.

### **Transport and freight**

Plan for heat damage in transit and storage – or pay the price. Stephanie Timotheou. 597: 106-107.

### **Vineyard machinery**

Tractor workload to increase over vintage. Stephen O'Loughlin. 588: 29-31.  
New Braud harvesters achieve economic savings and better performance. 589: 41.  
Kiss trouble goodbye with a reliable vineyard tractor. 589: 42.  
What happens when a firewood machinery designer plants a vineyard? 592: 34.  
Vineyard machinery earns its stripes. Grahame Whyte. 593: 68-72.  
Essential vineyard equipment is kept busy from season to season. Grahame Whyte. 595: 54-58.  
Easing the crush at harvest time. Blair Hanel. 596: 59-63.  
Vine sight the industry's hindsight. 597: 58-59.  
Pick a genuine product not a risky bargain. 599: 60-67.

### **Vineyard management**

Comparing organic, biodynamic and conventional vineyard management. Chris Penfold, Luke Johnston, Melissa Brown, Petra Marschner, Sue Bastian and Cassandra Collins. 591: 51-53.  
Is there a need for improved vineyard assessment for fruit grading? Peter Dry, Mardi Longbottom and Marcel Essling. 592: 23-25.  
PCA makes vineyard management as easy as ABC. 597: 61-62.  
When management is all about measurement. 598: 52-55.

### **Vintage reports**

Vintage 2013 to reap average yields and better prices. Kellie Arbuckle. 588: 19-20.  
Machinery maintenance is key to vintage success. Danielle Costley. 589: 47-48.

Oregon – vintage postcard. Max Marriott. 590: 37-38.  
New Zealand set for a stellar vintage in 2013. 591: 14-15.  
Wineries toast a quality 2013 vintage. Kellie Arbuckle. 592: 7-14.  
Vintage 2013 – what a sizzling summer! Greg Howell. 592: 66.  
Wineries celebrate end of vintage. Kellie Arbuckle. 593: 50-53.  
Adapting to difficult vintages. Geoff Cowey and Marcel Essling. 594: 26.

### **Wine shows, expos and trends**

Australians view latest gear at Vinitech. Greg Howell. 591: 49-50.  
WineEng 2013: 'Tastes of the Future'. David Clark. 592: 68-74.  
World of wine and spirits looks to 2016. 592: 79-80.

### **Winemaking**

US wine families forge new tracks. Denis Gastin. 588: 42-43.  
A precursor of more good things to come. David W. Jeffery. 588: 44-49.  
New Ovum and other eggs being trialled at Cullen's Margaret River winery. Danielle Costley. 591: 62-63.  
White wine phenolics – friend or foe? Richard Gawel, Dr Martin Day, Alex Schulkin and Dr Paul Smith. 591: 67.  
Pioneering wine family is quiet achiever. Grahame Whyte. 591: 68-69.  
From vine to bottle: sustainability a core value for Barossa winery. Kellie Arbuckle. 591: 72.  
Boutique players blend passion with dedication to make wines of eloquence. 592: 53-58.  
Effect of cold soak on the phenolic extraction of Syrah. Russell Moss, Kelsey Daniels and Jeff Shasky. 592: 59-62.  
Artisan by name and nature. Beverley Prideaux. 593: 84-88.  
New research sheds light on flavour additives in wine. Kellie Arbuckle. 594: 60-61.  
Chinese work experience for winemakers. Tessa Nicholson. 594: 62-63.  
Natural wine – the infidelity of classification. Max Marriott. 594: 66-67.  
Pyrenees winemaker seeks varietal character. Grahame Whyte. 595: 59-60.  
Industry mourns loss of Barossa baron. Kellie Arbuckle. 595: 62-63.  
Trials turn up new strategies for softening the kick in wine. 596: 70-73.  
Why take a punt on a year's hard work? Alison Soden. 596: 74-79.  
If there's a schedule then it's not rocket science to stick to it. 597: 63-69.  
It all tastes Greek to me – or will soon. Stephanie Timotheou. 597: 70-73.  
Flash détente an explosive option for winemakers. 597: 74-75.  
Hot diggety dog. 597: 90-91.  
Here's a hot idea straight out of the microwave. 598: 58-63.  
I see a red doll and I want to paint it...red. 598: 71.  
Lots of Latin makes for maximum aroma revelation in white wines. 598: 73-77.  
Alchemists turning science into wine. 598: 78-80.  
Waste not; want not, the golden rule in wineries. 598: 95-97.  
Kiwi pioneer releases first Petit Manseng. Stephanie Timotheou. 599: 69-70.  
Wine scientists harvest power of the Synchrotron. Andrew Mole. 599: 72-73.  
Wine filtration and filterability – a review and what's new. 599: 74-79.  
There's gotta be a buck in those organic by-products. 599: 80-82.

### **Winery waste and wastewater**

Wastewater systems in focus. Ed Merrison. 590: 40-41.  
Treating winery wastewater – the biological way. Mike Carson. 594: 74-75.

### **Yeast, additives and enzymes**

Which type of commercial nitrogen-based yeast nutrient is best for you? Greg Howell. 588: 57-58.  
Flavour-active wine yeasts: little things that have a big impact. Chris Curtin and Toni Cordente. 589: 54-56.  
The A-Z of wine enzymes: Part 1. Karien O'Kennedy and Rose-Marie Canal-Llauberes. 589: 57-61.  
The A-Z of wine enzymes: Part 2. Karien O'Kennedy and Rose-Marie Canal-Llauberes. 590: 42-46.  
White wine aroma optimisation. 597: 77-82.  
Identifying genes of oenological relevance in winemaking yeast. 599: 83-85.  
Increasing the sensorial enrichment of white wine with non-Saccharomyces yeast strains. 599: 94-97.  
Yeast is an evolutionary experience in research. 599: 99-100.

### **Major New Zealand articles in 2013 (others included above)**

Sacred Hill celebrates its biggest year ever. Grahame Whyte. 588: 65.  
Growers and distributors visit New Zealand on wine study tour. 590: 20.  
NZ growers make hay while drought ravages. Grahame Whyte. 596: 36.  
NZ first to trial national sustainability project. Stephanie Timotheou. 598: 13.
