### Cover

It's been 50 years since the first patent for a bag-in-box wine package was registered. We look across the industry and back through time on the impact the wine cask has made.

More details from Page 10.

## ■ news

- Letters to the editor.....6
- Crowd-funded winery extension.....7  
Sarah Collingwood, Four Winds business manager, explains how the Canberra District winery paid for extensions through crowd-funding.
- Movers & shakers.....8
- 50-year milestone for bag-in-box ..... 10  
 The idea of getting lots of wine to a consumer in a way that overcame oxidation issues was a big deal for the wine industry 50 years ago. There's every indication it will keep being a big deal well into the future.

## ■ grapegrowing

The alternative path isn't always easy street.....22

Jumping on the bandwagon when new varieties are introduced into Australia can cause headaches in the vineyard if you don't do your homework.

Economic impact of Eutypa Dieback.....26

The best management strategy appears to be to actively manage the disease, even with increased annual expenses, since it results in improved return on initial investment.

Shiraz in a future climate .....30

Trials on the phenological development of the vines under a future climate scenario have shown temperature will be more influential than atmospheric carbon dioxide levels.

Young Gun: Smart + sustainable Jana Shepherd.....32

Risky business: Quad bike safety relies on the right attitude .....35
