

WINE & VITICULTURE JOURNAL

INDUSTRY ASSOCIATION COLUMNS

- 10 AGW (Tony Battaglene): Counting the costs of Australia's 2019-20 bushfires
- 11 WINE AUSTRALIA (Liz Waters): It's important to consider irrigation and nutrition of vines post-harvest
- 12 ASVO (Brooke Howell): Nominations open for ASVO Fellows

WINEMAKING

- 14 ERIKA SZYMANSKI: More tangles - and maybe some actionable results - in the oxidation-clarification nexus
- 17 MARK O'CALLAGHAN: Smoke signals: what does the latest research, testing and winemaker insights tell us about smoke taint?
- 22 Chemical and sensory effects of cofermentation and post-malolactic fermentation blending of Syrah with white Rhone cultivars
- 29 AWRI REPORT: Going green with whole bunches

VITICULTURE

- 33 Leaf nutrient analysis - do we need to refine the current sampling protocol?
- 36 Progressing grapevine trunk disease management for vineyard longevity
- 41 A compact mechanisation system to recover vineyard prunings for energy purposes
- 48 ALTERNATIVE VARIETIES: Carignan

BUSINESS & MARKETING

- 51 The future of wine packaging
- 53 Recent changes in the US market buffeting wine consumption
- 57 Wine consumer tax in Australia: a comparative perspective

TASTING

- 63 Varietal report
- 67 Sangiovese
