INDUSTRY ASSOCIATION COLUMNS

- 10 AGW (Tony Battaglene): Working towards a better trading environment
- 12 WINE AUSTRALIA (Andreas Clark): \$200m earmarked for industry investment over the next five years
- 13 ASVO (Brooke Howell): ASVO Awards for Excellence go online

WINEMAKING

- 15 MARK O'CALLAGHAN: Vat's a wrap - and the search for concrete evidence
- 20 Oak barrel and bottle ageing: the effect of oxygenation rate and time on the evolution of red wine colour
- 26 Finding the sweet spot for nitrogen status in Pinot Noir
- 31 Yeast derived indole accumulation: why yeast preparation can be just as important as yeast strain selection for sparkling wine
- 34 Controlled hydrodynamic cavitation: a novel tool offering multiple opportunities for winemaking
- 39 AWRI REPORT: Vintage 2020 – observations from the AWRI helpdesk

VITICULTURE

- 42 Possible biomarker for botrytis: could the measurement of the fungal sterol ergosterol be the answer?
- 52 Endophytic bacteria from grapevines: a potential biocontrol of trunk diseases
- 58 ALTERNATIVE VARIETIES: Lambrusco Maestri

BUSINESS & MARKETING

- 61 Driving the strategic growth of Australian wines in the US market – Stage 4
- 64 Initial estimates from the 2020 harvest revealed
- 66 Australia's declining winegrape varietal distinctiveness

TASTING

- 70 Grenache - workhorse to wine of somewhere
- 71 Grenache in the Australian market — two steps forward...
- 73 Varietal report
- 78 Tasting notes
